

Digital Assignment 1

Internet and Web Programming

Name - Devesh Kumar

Reg No. – 19MCA0116

Q1. Create your own website using HTML and CSS. The site will contain your personal information. The information can be fictional.

Website content:

- ☐ **3 pages - o Home o My Academic - your academic information o Contact Me - your email address, and a contact form**
- ☐ **Home page: o A floating header containing the following, as floating elements**
 - ☐ **Your name at the top with h1 heading - floating at left, 40% width**
 - ☐ **A horizontal menu bar floating at right 60% width - Home, Accomplishments, Academic, About Me, Contact Me**
 - ☐ **Set background/other styles so that it stands out and the menu links are clickable when you scroll to other sections o A container - max-width 1200px, center aligned with css, everything below will go inside this container as a section div. o**

Section 1: height 600px with borders, write your career summary here, place your picture at top right corner as floating element, picture width 200px o

Section 2: Add a video with width 1000px (your intro video or any other) o

Section 3: your Accomplishments, use unordered list for each of them o

Link this accomplishment section to the menu item at top horizontal menu

o Section 4: About Me section, link this section to the menu at menu bar o

A footer: use the copyright message from assignment 1

□ My Academic page: o Use the header and footer from the home page o

List out your academic information like the academic part from your

resume o Adjust the menu links targeting on home page □ Contact Me

page: o Use the header and footer from the home page o Write your email

address o Create a contact form o Adjust the menu links targeting on home

page.

Code
